

THE 124: Theatre Production-Technical

Theatre Production-Technical is meant to develop an understanding of the principles, methods and tools of modern technical theatrical production. Students participate in a production in a technical capacity as assigned by the Director of Technical Theatre based on student's area of choice and Theatre program production needs. The Theatre Production-Technical student will develop a methodology for executing technical elements of a theatrical production in an educational theatre setting. Attendance at meetings, evening rehearsals and performances may be required based upon assignment. The Theatre Production-Technical student is expected to perform the duties typically associated with his/her assigned role in a manner consistent with legitimate, professional theatre. Production, rehearsal and performance expectations of students enrolled in this course are modeled after International Alliance of Theatrical Stage Employees or United Scenic Artists guidelines, which can be found at www./iatse.net/ and www.usa829.org/. Required for majors.
