

# Final Examinations/Culminating Projects

The Office of the Registrar publishes a final examinations/culminating projects schedule at the beginning of each term.

Students must take the final examination or complete a culminating project in the class section in which they are enrolled; they will not be permitted to change sections for examinations or projects without the prior approval of the professor.

No final examination in any course shall be given in advance of the scheduled date for the examination without permission of the Vice President for Academic Affairs or her/his designee.

At the discretion of the professors, only candidates for degrees with an average of “B” or higher in a course during their final semester or final summer term or terms before completing work for a degree may be exempted from the final examination or culminating project in that course and awarded grades they have maintained through the last class period. The policy for exemptions must be clearly stated at the beginning of the semester.
