

CHE 240: Essentials of Organic Chemistry Laboratory

The laboratory will include hands-on experimentation with basic chromatography, spectroscopy, organic techniques including recrystallization, distillation, and extraction. This course was designed for biology and health science majors and is not appropriate for a CHE 231/232 substitution for pre-professional students interested in veterinary science, medicine, dentistry, physician assistant, or pharmacy as their organic chemistry preparation. This course could serve as an introduction to organic chemistry for pre-professional students. Three laboratory hours per week.

Credits: Credits 1

Prerequisites:

Prerequisites

CHE 113 with a grade of "C" or better; CHE 211

Co-Requisites:

Co-Requisite Courses

CHE 211

CHE 230

CHE 211

CHE 230
