

Final Examinations/Culminating Projects

The Office of the Registrar publishes a final examinations/culminating projects schedule at the beginning of each term.

Students must take the final examination or complete a culminating project in the class section in which they are enrolled; they will not be permitted to change sections for examinations or projects without the prior approval of the professor.

No final examination in any course shall be given in advance of the scheduled date for the examination without permission of the Vice President for Academic Affairs or her/his designee.

At the discretion of the professor, students in their final term before graduation and with a B or higher in the course may be exempted from the final examination or culminating project. The grade the student receives is the grade they have as of the final class period. The policy for exemptions must be clearly stated in the course syllabus.
